SUMMARY

Detail-oriented Java Developer with hands-on experience in **Core Java, JDBC, MySQL, and Data Structures & Algorithms**. Skilled in designing and developing efficient applications and user-friendly websites using **HTML, CSS, and Tailwind CSS**. Completed multiple internships as a Java Developer, contributing to projects involving **database management, application development, and full-stack solutions**. Strong problem-solving abilities with a solid academic foundation in **MCA and B.Sc. IT**, and a focus on delivering scalable, high-quality solutions.

SKILLS

Programming Language : **C, Core Java, Java Swing, JDBC** Libraries/Frameworks: **Tailwind CSS, BootStrap** Tools / Platforms: **Git, VS Code** Databases: **MySQL, Oracle**

PROFESSIONAL EXPERIENCE

Elite Tech Intern

Bhopal, MP | May 2025 - June 2025

Java Developer Intern

- * Developed a Weather Application using Java to fetch and display real-time weather data, enhancing skills in API integration and user interface design.
- * Created a File Handling Utility Tool in Java to automate file reading, writing, and organization tasks, improving understanding of I/O streams and file management.

Internship Studio

Jan 2022 - Aug 2023

Java Developer

- * Built a Pizza Mania Application using Java with features like dynamic menu display, order processing, billing, and user interaction through a console-based interface.
- * Strengthened object-oriented programming (OOP) concepts and practical Java skills through structured project work.

PROJECTS

Weather Application

Java Swing, Weather API

- Developed a Weather Application using Java Swing for GUI development.
- Integrated OpenWeatherMap API to fetch real-time weather data

Webbilitant

Tailwind CSS, Javascript

- Webbilitant positions itself as a company that empowers businesses by offering innovative digital solutions — such as website design, development, and other online technologies — helping clients build or strengthen their online presence
- Their working philosophy centers on enabling businesses to grow via technology, by combining creativity and technical expertise to deliver tailored digital services that align with client goals.

File Handling Utility Software

Java Swing, File Handling

- Designed and developed a Java-based desktop File Handler Utility using Java Swing.
- Utilized Java I/O (File, FileReader, FileWriter, BufferedReader, etc.) for file operations.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology

Marwari College Bhagalpur 2021-2024
Percentage : 70.72

Master's of Computer Application

Lakshmi Narian College of Technology 2024-2026
CGPA : 7.73

CERTIFICATE

Diploma in Information Technology

Argus Academy

Certification of Internship Completion

Elite Tech

Certification of Internship Completion

Internship Studio

AWS Academy Graduate

Amazon AWS
